

Michelle Penn Memorial Trophy

This trophy in memory of Michelle Penn, daughter of Mike Penn G7JYY

1. This is an annual trophy which remains the property of the Coventry Amateur Radio Society.
2. It is open to all members of the Society who abide by the rules & submit a log within the prescribed dates. Portable & mobile operation is permitted within your own DXCC country.
3. The contest is based upon stations contacting or receiving other amateur radio stations who are located within places twinned with The City of Coventry in England. The emphasis is on the word within, near to or close by will not count. A current list will be made available to participants along with a log sheet.
4. The duration of the contest is between the 1st of January and 2 weeks prior to the AGM of the society each year.
5. The licensee or listener who claims by written log to have contacted or heard the greater number of individual twinned cities will be deemed the winner. Repeat contacts on different bands will be allowed. In the event of a tie or ties, the trophy will be shared equally over the year.
6. The log is available on the Society website and/or hand book. Claims by licensed stations must complete the log in the usual way. It is preferred that listeners report a QSO rather than just a CQ or similar call. In this case, the call sign of the claimed station & that of the station contacted by the claimed station should be recorded in the log. The signal report should be that which is exchanged by the stations you are logging. This allows the claim to be checked should the need arise.
7. The trophy will be presented in accordance with practice as laid down in the Society's handbook.
